

LIVE FISH TRANSPORT TANK PRODUCTION

LIVE FISH TRANSPORT TANK

- **Dimensions:** 2.5 m x 9 m
- 25 ton capacity stainless steel live fish transport tank
- Separate filling and discharge covers for each tank, insulated tank body.
- Can be manufactured in special dimensions.
- **Chassis Section:** Mounted on TOPRAK-SAN brand platform chassis.
- Durable and robust construction
- Key delivery production
- All production processes are carried out in our facilities.
- **Dimensions:** Manufactured according to requested capacity.

During
production
assembly

FISH TRANSPORT TRAILER (STAINLESS STEEL)

- Suitable for transporting fish and fish oil to production facilities.
- Sliding cover system.
- Fish water discharge valve.
- Manufactured from AISI 304 quality stainless steel.
- High leakproof container system.
- Container type trailers are compatible.

20 m³ FISH NET WASHING MACHINE

- ▶ **Tank Dimensions:** 20 m³ 5000 mm x 2450 mm
- ▶ **Motor Power:** 2 x 22kW Motor power and planetary reducer and motor brake
- ▶ **Rotation Speed:** 8 - 12 rpm
- ▶ Stainless steel 304 quality sheet metal
- ▶ Tank sheet thickness St 52 quality
- ▶ System controlled water intake - discharge
- ▶ Hydraulic opening, cover and locking cover
- ▶ The boiler is equipped with integrated hydraulic and electric control unit
- ▶ Safety and control sensors
- ▶ Touch control panel (Automatic screen - easy access to programmable control menu-Modular fully automatic washing modes)
- ▶ Paints suitable for working conditions
- ▶ Central automatic lubrication system
